Description : Description du produit The first book to explore the religious ideals that drive the policies and politics of Bush as president and that have privately shaped Bush as a man. More than any other president in recent years, George W. Bush's presidency is "faith based." His life demonstrates the power of faith to create change, to build a family and political career, and to shape the destiny of a nation with his leadership. This book allows us to see how George W. Bush interjects his faith and belief in God into every detail of his life. From the President's devotional time alone each morning to his frequent incorporation of Scripture into his speeches, Bush relies upon his faith to direct his actions and goals. In 1986, Bush responded to the Biblical

conversion story of the Apostle Paul on the road to Damascus by asking Jesus to be his friend, and as a result he overcame a growing dependence upon alcohol and turned to the Bible to save his marriage and his family. During his presidential campaign, he brought leading pastors to his governor's mansion to lay hands on him and pray for his future, telling them that he had been "called" to seek higher office. From the tragedy of September 11th to the present-day conflict in Iraq, President Bush has learned to use his personal faith to help him live his life-both in office and in private. This book will inspire others to do the same.

Prsentation de l'diteurHis faith sets him apart and defines him as a man, a husband, a father, and the president of the United States of America. What is the influence of Bushs faith upon history? Is he an aberration? Can he really apply biblical truths to political decisions? In this incredible book, the man emerges, not just because of faith, but because in finding faith, he has discovered who he is and has stepped forward to become the man of his own vision.
